

# Greater Denver Transit Denver District 5 Transit Plan - March 2023

[www.greaterdenvertransit.com](http://www.greaterdenvertransit.com)

# Denver District 5

---

---

Denver District 5 is located southeast of Downtown to the north of Glendale. While it doesn't have rail service, it does have several major bus routes running through it.

- The 3, 6, 10, 11, 15, 15L, 24, 40, 65, 73, 83D, 83L and 105 bus routes serve the district, with most bus routes arranged on a grid system.

# Buses in District 5

---

---

Bus frequencies in the district should be increased, BRT should be implemented and all bus stops should be upgraded.

## City and County of Denver Action:

- ❑ The [Colfax BRT project program should be accelerated](#) with the aim for BRT service to start in 2026.
- ❑ [Negotiate rates with RTD](#) to add enough extra bus service to achieve 15 minute frequencies until midnight on most routes.
- ❑ [Upgrade all bus stops to be fully ADA accessible](#) and feature shelters, benches, trash cans plus map and schedule information provided using printed posters and digital screens.
- ❑ [Clear snow from bus stops](#) when property owners fail to do so.

# District-Wide Initiatives

---

---

Bus and train service in Denver should be improved with projects to upgrade infrastructure and provide amenities.

## City and County of Denver Action:

- ❑ Extend the [L Line to 38th & Blake Station](#).
- ❑ Build out [BRT on Colfax, Broadway, Colorado and Federal](#).

## Support and Advocacy:

- ❑ Implement GDT's [Downtown Bus Plan](#) that will speed up RTD buses, expand Downtown frequencies, and multiply connections without costing millions or requiring RTD to hire more drivers.
- ❑ Adopt a robust [Front Range Passenger Rail Plan](#) that provides frequent and reliable intercity service on passenger-dedicated tracks.
- ❑ Install and operate [bike shelters at all rail stations](#).
- ❑ Install [charging outlets](#) (USB or 120V) on RTD buses and trains.
