

Greater Denver Transit Denver District 6

Transit Plan - March 2023

www.greaterdenvertransit.com

Denver District 6

Denver District 6 is located just southeast of Downtown and has a busy light rail corridor plus several major bus routes running through it.

- ❑ The **E** and **H** light rail lines serve the district with a major transfer station located at Colorado Station.
- ❑ The **3, 11, 24, 40, 46, 65, 73, 83D** and **83L** bus with most using Colorado Station as a transfer point.

Light Rail in District 6

Light rail frequencies in the district should be increased and publicly available amenities close to stations developed.

City and County of Denver Action:

- ❑ Implement ‘Intelligent’ Transit Oriented Development policies to encourage the building of public amenities (e.g. grocery stores, coffee shops) at or next to light rail stations.
- ❑ Reserve sufficient right-of-way for a 2-track Front Range Passenger Rail alignment through the RTD District plus extra siding tracks in the I-25 & Broadway and Burnham Yards areas.

Support and Advocacy:

- ❑ Accelerate the adoption of 10-minute frequencies on the D, E and H lines in accordance with the System Optimization Plan.
- ❑ Expand availability of up-to-date integrated train, bus, and other ‘last mile’ transit information provided at stations.

Buses in District 6

Bus frequencies in the district should be increased, BRT should be implemented and all bus stops should be upgraded.

City and County of Denver Action:

- ❑ Upgrade the 0 bus route to Bus Rapid Transit (BRT) standards and transform the Broadway / Lincoln corridor to connect with both Union Station via Downtown and RiNo via Brighton Blvd.
- ❑ Negotiate rates with RTD to add enough extra bus service to achieve 15 minute frequencies until midnight on most routes.
- ❑ Upgrade all bus stops to be fully ADA accessible and feature shelters, benches, trash cans plus map and schedule information provided using printed posters and digital screens.
- ❑ Clear snow from bus stops when property owners fail to do so.

District-Wide Initiatives

Bus and train service in Denver should be improved with projects to upgrade infrastructure and provide amenities.

City and County of Denver Action:

- ❑ Extend the [L Line to 38th & Blake Station](#).
- ❑ Build out [BRT on Colfax, Broadway, Colorado and Federal](#).

Support and Advocacy:

- ❑ Implement GDT's [Downtown Bus Plan](#) that will speed up RTD buses, expand Downtown frequencies, and multiply connections without costing millions or requiring RTD to hire more drivers.
- ❑ Adopt a robust [Front Range Passenger Rail Plan](#) that provides frequent and reliable intercity service on passenger-dedicated tracks.
- ❑ Install and operate [bike shelters at all rail stations](#).
- ❑ Install [charging outlets](#) (USB or 120V) on RTD buses and trains.
